PRL's custom glass specialty products bring innovation to businesses and homes. Crafted with the finest glass edges and corners, we render infinite design concepts for interiors and exteriors. Offered in clear and ornamental glass options, these pieces suit a wide range of project needs.

Our specialties include everything from mirrors, table tops and countertops to all-glass wine cellars, decorative glass wall designs, office cubicles and handrail and guardrail glass panels.

With custom glass fabrication as our specialty, we manufacture all glass specialties in-house with diverse custom fabrications. We produce curved and complex geometric glass shapes, intricate notching, hole diameters, pattern cut-outs, overlays, infill panels and oversized glass projects.

Generated with our water jet system, computerized cutting tables and robot glass polishers, you're assured top quality craftsmanship. Each made-to-order per your plans, we can create virtually any custom glass specialty you require.

Glass Edgework & Corners: Vast Styles & Thicknesses

Total Characters: 51

Image (named the name of product): glass-edges-corners-custom

Product Price \$1.00: (Fixed or Range):

Product Description: (1,000 Characters Max.)

Total Characters: 991

Sold in a huge array of styles and thicknesses, our glass edges and corners are ground, buffed, and polished with care. Handmade in our facility, these custom specialties are fabricated in many glass types in standard and heavy glass thicknesses.

PRL's glass edgework includes multiple designs. You can get double bevels, Ogee, Bullnose, or Ocean Surf with waves. And our craftsmen produce the highest quality flat polished and mitered edges. Operating three robotic systems, we can polish linear edges of tempered and laminated glass at high rates of speed at competitive prices.

Offered with or without sandblasted accents, our glass corners are perfect for table tops and countertops. We generate these specialties in various profiles. Available in dubbed, radius, square and more, we also make custom corners to your job's needs.

Specifications: Applicable Glass Types: Annealed, tempered, laminated & low iron. Glass Thicknesses: 3/16", 1/4", 3/8", 1/2", 3/4" & heavy glass edges & corners.

Mirrors: Custom Lighting, Oversizes & Colors

Total Characters: 44

Image (named the name of product): custom-mirrors-oversize-lighting

Product Price \$1.00: (Fixed or Range):

Product Description: (1,000 Characters Max.)

Total Characters: 996

We fabricate custom mirrors in multiple colors, oversizes, lighting options and more. Made to your specifications, these glass specialties are offered in clear, gray, bronze and blue. Also furnished in low iron glass, our mirrors provide colorless clarity.

Spectacular in baths, our backlit mirrors provide the visibility you'll need. To create them, we remove the silvering on the back of the glass with a sandblasted strip. This allows lighting to shine through the mirror's surface and illuminate rooms.

PRL renders mirrors with infinite customizations. Supplied in a range of sizes and thicknesses, our specialties include oversized and sectional wall panels and mirrors with sandblasted glass borders, patterns and logos. Producing an array of custom cut-outs, we also create mirrors to fit windows, display cases and light fixtures.

Specifications: Applicable Glass Types: Annealed & low iron. Mirror Sizes: Made to order. Oversizes: Up to 110" x 190". Glass Thicknesses: 1/8", 3/16" & 1/4".

Glass Table Tops: Endless Shapes, Overlays & Inserts

Total Characters: 52

Image (named the name of product): glass-tabletops-custom

Product Price \$1.00: (Fixed or Range):

Product Description: (1,000 Characters Max.)

Total Characters: 962

Crafted in standard and complex shapes, PRL's glass table tops can be crafted with custom overlays or inserts. Manufactured in-house, these specialties are offered in endless sizes and glass options. We also make oversized table tops and glass bases.

We fabricate glass table tops in any shape. Made to order, you can get these products in rectangular, triangular and half-moon shapes as well as oval, scalloped and custom shapes. Delivered in standard and heavy glass thicknesses, our table tops meet many project needs.

These custom specialties are rendered in rich glass lines. We stock clear, bronze, gray and Starphire and can generate laminated and spandrel colors. Our table tops are also available in vast textures, glue chip borders, sandblasted motifs and corner accents.

Specifications: Applicable Glass Types: Annealed, tempered & laminated. Table Top Sizes: Made to order. Oversizes: Up to 110" x 190". Glass Thicknesses: ¼" - ¾" & heavy glass table tops.

Glass Countertops: Custom Sizes, Mounting & Pattern Cuts

Total Characters: 56

Image (named the name of product): custom-glass-countertops

Product Price \$1.00: (Fixed or Range):

Product Description: (1,000 Characters Max.)

Total Characters: 996

Our glass countertops are available in diverse sizes, pattern cuts and mounting options. Fabricated mainly in heavy thicknesses, these custom specialties are as durable as marble or granite. Our countertops can be produced with or without stand-offs for elevated or surface applications.

Offered in boundless glass varieties, PRL makes countertops with custom sandblasted graphics, textured patterns and in several hues. We generate countertops in spandrel and laminated glass colors and in Starphire, gray and bronze tints.

Our glass countertops can be rendered in any size or design to meet your specialty needs. We craft standard and compound shapes to pattern cuts, hole diameters, detailed notching and more. For raised countertops, we supply custom stand-off mountings extruded to any length or diameter.

Specifications: Applicable Glass Types: Annealed, tempered & laminated. Countertop Sizes: Made to order. Oversizes: Up to 110" x 190". Glass Thicknesses: ½", ¾" & heavy glass countertops.

All-Glass Wine Cellars: Framed & Frameless Enclosures

Total Characters: 53

Image (named the name of product): glass-enclosed-wine-cellars

Product Price \$1.00: (Fixed or Range):

Product Description: (1,000 Characters Max.)

Total Characters: 970

Sold as framed or frameless units, our all-glass wine cellars have a lot to offer. These specialties can be built with standard or sandblasted panels or wine racking with notches and holes. Yielded in endless configurations, our wine cellars are made to order as all-glass or aluminum framed enclosures.

We deliver frameless all-glass wine cellars in several standard or custom single, double and oversized all-glass swing doors. Our aluminum framed units are rendered with Max sliders, numerous swing stiles or full-framed sliding doors.

PRL supplies vast hardware and pull handles for all-glass wine cellars. These custom specialties can be equipped with everything from door rails, floating headers and a volume of patch fittings to standard, offset or locking ladder pulls in a variety of finishes.

Specifications: Applicable Glass Types: Tempered, laminated & low iron. Wine Cellar Sizes: Made to order. Oversizes: Up to 110" x 190". Glass Thicknesses: 3/8", ½" & ¾".

Decorative Glass Wall Designs: Sectional & Infill Panels

Total Characters: 56

Image (named the name of product): decorative-glass-wall-designs

Product Price \$1.00: (Fixed or Range):

Product Description: (1,000 Characters Max.)

Total Characters: 993

PRL's decorative glass wall designs are rendered with infill or sectional panels. Self-supporting or mounted to surfaces, these custom specialties are made in linear, curved or geometric shapes. Fabricated in many glass sizes, our wall designs bring dazzling accents to interiors.

We fit decorative glass designs with various supports and attachments. Offered in tapered and square profiles, rapid dryset rails secure self-supporting panels. Using stand-offs custom extruded to any length or diameter, glass designs are mounted to surfaces or walls.

Crafted in over 12 glass textures, decorative wall designs are also produced in sandblasted or glue chipped logos, graphics and borders. Carrying laminated and spandrel colors in blues, greens, whites and blacks, we can create custom hues for glass specialties in reds, purples and more.

Specifications: Applicable Glass Types: Annealed, tempered & laminated. Wall Design Sizes: Made to order up to 110" x 190". Glass Thicknesses: Per your plans.

Glass Partitions & Cubicles: Infinite Widths & Heights

Total Characters: 54

Image (named the name of product): glass-partitions-cubicles-custom

Product Price \$1.00: (Fixed or Range):

Product Description: (1,000 Characters Max.)

Total Characters: 980

Built in any length, width or height, our glass partitions and cubicles meet several office and home needs. We generate these custom specialties in spandrel or laminated glass colors, acid etched patterns, sandblasted designs and more.

PRL's partitions and cubicles are supported with posts or rapid dryset rails. Furnished in stainless steel, brushed nickel and clear and bronze anodized finishes, we extrude stainless steel flex posts, standard aluminum and custom posts to your plans.

Our rapid dryset rails feature interchangeable face plate covers in clad, anodized, Kynar painted and custom powder coated finishes. We offer a variety of attachments for these specialties. To secure adjoining partition and cubicle panels, we supply glass and wall mount brackets as well as pre-mounted glass fasteners.

Specifications: Applicable Glass Types: Tempered & laminated. Partition & Cubicle Sizes: Made to order. Oversizes: Up to 110" x 190". Glass Thicknesses: 3/8", 1/2" & 9/16".

Handrail & Guardrail Glass Panels: Holes, Notches & Shapes

Total Characters: 58

Image (named the name of product): custom-glass-panels-handrail

Product Price \$1.00: (Fixed or Range):

Product Description: (1,000 Characters Max.)

Total Characters: 977

Our handrail and guardrail glass panels are rendered with the finest holes, notches and shapes. We also supply these specialties in oversizes, multiple clear or decorative glass railing panels and with custom edges and cut-outs.

We can craft virtually any handrail or guardrail glass panel. Our custom notching is flawless, and with our CNC cutting machine, we drill precise holes in many compound and geometric shapes. We can even create railings with curved panels or sectional glass balusters.

Sold in rich glass scopes, PRL's handrail and guardrail panels are sure to please. These custom specialties can be bid with textured, glue chipped and sandblasted designs or colored laminated glass. To meet safety codes, railing panels can also be laminated with SentryGlas® or PVB interlayers.

Specifications: Applicable Glass Types: Tempered & laminated. Panel Sizes: Made to order. Oversizes: Up to 110" x 190". Glass Thicknesses: Standard: 1/4", 3/8", 1/2" & 9/16". Custom: 3/4" to 3".
