AceLab Product Descriptions:
Battle & Sunny Lux Doors

Aluminum Battle Doors:

Image: aluminum-battle-doors

PRL's aluminum Battle doors are built for high-traffic commercial entrances. Offered as single or double doors with inswing or outswing configurations, you can get Battle doors as offset or center-hung operations. Made with thermally broken frames, these aluminum doors deliver excellent impact resistance, energy efficiency and superior strength. Sold in 2 ½" narrow, 3 ½" medium, and 5 ¼" wide stiles, our Battle doors feature multi-point locking systems and accept 1" thick impact-resistant glass as well as a variety of glass types and thicknesses.

Sunny Lux Aluminum Doors:

PRL's Sunny Lux aluminum doors are crafted for high-end residential entries. Built with thermally broken frames, they deliver superior impact resistance, energy efficiency, and weather protection. Sold as single or double doors, these aluminum ingresses are offered as inswing or outswing configurations. Sunny Lux doors accept 1/8" IG units, impact resistant glass, and many other glass types and thicknesses. Offering multiple threshold options and ¼" adjustable jambs, they meet several project needs. Featuring a 4-point locking system, one-handed operation, and an installer-friendly design, Sunny Lux aluminum doors bring strength, style, and ease of use to luxury living.
