

Fastest Lead-Times, Excellent Quality, MBE Supplier

Shop at PRL Glass & Aluminum. As a certified MBE supplier, we offer excellent quality products, competitive prices, and the fastest lead-times in the industry! Furnishing a wide range of products since 1989, we're excited to bring you our thermally broken accordion bifold doors with Privacy glass. What's so great about these indoor/outdoor sliders? Keep reading to find out.

Our thermally broken accordion bifold doors with Privacy glass deliver several benefits. Constructed with thermally broken frames, these moveable doorwalls help maintain interior temps, and with a flip of a switch, Privacy glass panels instantly go from transparent to opaque. These thermally broken patio sliders are rendered as top-hung roller systems. Available in multiple configurations, they easily tuck away into a side-stacked orientation, making these folding doorwalls ideal for tight spaces. And sold as complete packages, our thermally broken accordion bifold doors with Privacy glass include everything you need. Don't miss out! Order yours today!

Thermally Broken Accordion Bifold Doors with Privacy Glass Features:

- Thermal break in seal stabilizes interior temperatures
- Weatherstripping delivers extra protection from the elements
- Privacy Glass instantly goes from transparent to opaque by flipping a switch
- Track Options: No sill, high sill, low sill & partially recessed ADA sill
- Configurations: In-line, 90°, multi-panel & custom
- Up to 16 panels per system
- Heavy duty stainless steel hinges for oversized doors
- Finishes: Clear & bronze anodized, mill, dual tones, powder coats & Kynar paints
